18 gondela cars with firewood
2 gondela cars : ith coal; 13
boxcars with billeting
equipment, 2 flatcars with
telegraph poles, 2 tank cars
with 12,000 liters of gasoline;
the
firewood came from the Kattner
Settlement, gasoline and telegraph
poles from Trausdorf, the other
material from the Jacger Kaserne
and the former Landesregierung.

Eisensteat to Dad Fischau 16 April

Two large boilers were being loaded on railroad cars at the spur track of the Siegendorf (0 49/% 67) sugar refinery. The boilers were being dispatched to Bad Fischau. Seven more flatcars, loaded with undetermined goods were also dispatched from the area of the sugar refinery to Dad Fischau. (4)

Comments.

25X1

ith a runway and its size makes at improbably for jet fighters to use this airfield. The information therefore requires confirmation.

(2) The evacuation of quarters in Eisenstadt and their retention by the Soviets indicates the intention of transferring an additional air unit to Trausdorf. If the information on the presence of jet fighters in Trausdorf should be confirmed this new air unit may be equipped with jet fighters.

(3)

(b) The purpose of the shipments from Bisenstadt to Bad Fischau at the western edge of the Tiener Neustadt airfield has not been fully determined.

However, it is believed that ground units were transferred from Eisenstadt to Wiener Neustadt. There is as yet insufficient information to determine the connection between the reported transfer of troops and the observation of jet fighters at Wiener Neustadt and Trausdorf airfields.
